## Career Objective

I would like to find a writing position that I can contribute immediately as well as grow and learn as a writer. With diverse life experiences, I could bring a different creative perspective to projects.

## Education

**2018** | **Bachelor of Science**
BS Computer Science - Mobile Development
Full Sail University
**Graduation Awards:**
Course Director Award for Project and Portfolio VII

**2020** | **Master of Fine Arts**
MFA - Creative Writing
Full Sail University

## Work Experience

**2018 - Present** | **Tapt Labs - Mobile Applications Developer**
Create, maintain and implement the development of original mobile apps for both Android and Apple platforms.

**2014 - Present** | **Freelance - Web and Applications Developer**
Responsible for marketing, selling services, managing all client relationships, controlling budgets, and designing/developing websites, web-based applications and mobile applications from small to large businesses.

**2006 - 2013** | **Bihler Machine Operator- Therm-O-Disc**
Setup and ran a Bihler weld and press machine for production. Responsible for the output and quality of the parts produced.
